MODELS AFFECTED

**PACBRAKE EXHAUST BRAKE INSTALLED ON VEHICLES WITH AN ALLISON 3060 WORLD TRANSMISSION.**

SUBJECT

**EXHAUST BRAKE INTERFACE WITH THE TRANSMISSION ECU.**

Allison requires that exhaust brakes be interfaced with the transmission ECU controls to maintain optimum shift quality. This will provide automatic downshifting when the exhaust brake is activated to achieve high RPM to maximize retarding power. All Allison MD transmission ECU's must be programmed when used with an exhaust brake - which requires the use of a ProLink diagnostic tool. If a ProLink tool is not available, or you need additional information, contact your nearest Allison Transmission re-calibration center listed on the attached sheet. There is a service charge for the reprogramming service.

## **Allison Transmission - Re-calibration Service Centers**

1. Atlantic Detroit Diesel-Allison Inc.	Piscatway	NJ
2. Atlantic Middletown Connecticut	Middletown	CT
3. Central Detroit Diesel-Allison Inc	Liberty	MO
4. Central Detroit Diesel-Allison Inc	Wichita	KS
