SUBJECT

STAINLESS STEEL EXHAUST COMPONENTS

APPLICATIONS

**EXHAUST BRAKES FOR CUMMINS
1994 AND LATER**

The Cummins Engine Co will require stainless steel exhaust components be used with their engines to accommodate catalytic converters for emission standards commencing 1994. Pacbrake exhaust brakes meet all criteria for this application and now produce stainless steel pipe adapters for mounting the brake into a stainless steel exhaust system.

The following is a list of adapters and adapter kits for Cummins B & C series engines for standard or stainless steel applications with 3", 3 1/2", or 4" pipe sizes.

ADAPTER AND KITS FOR 4" PIPE:

std. adapt. C11340 qty 2 in kit C11400

s.s. adapt. C11342 qty 2 in kit C11500

ADAPTERS AND KITS FOR 3 1/2" PIPE:

std. adapt. C11344 qty 2 in kit C11420

s.s. adapt. C11347 qty 2 in kit C11520

ADAPTERS AND KITS FOR 3" PIPE:

std. adapt. C11346 qty 2 in kit C11440

s.s. adapt. C11348 qty 2 in kit C11540

Each of the above kits listed also contain 2 heavy duty s.s. "V" clamps to facilitate mounting.
