

## OPTIONAL Hino Electrical Schematic

VEHICLES USING PACBRAKE AUXILIARY COMPRESSOR

### Engine ECU Terminal No.

### INSTALLATION ADDENDUM

Some vehicle operators prefer the Pacbrake dash switch provided in this kit not be installed.

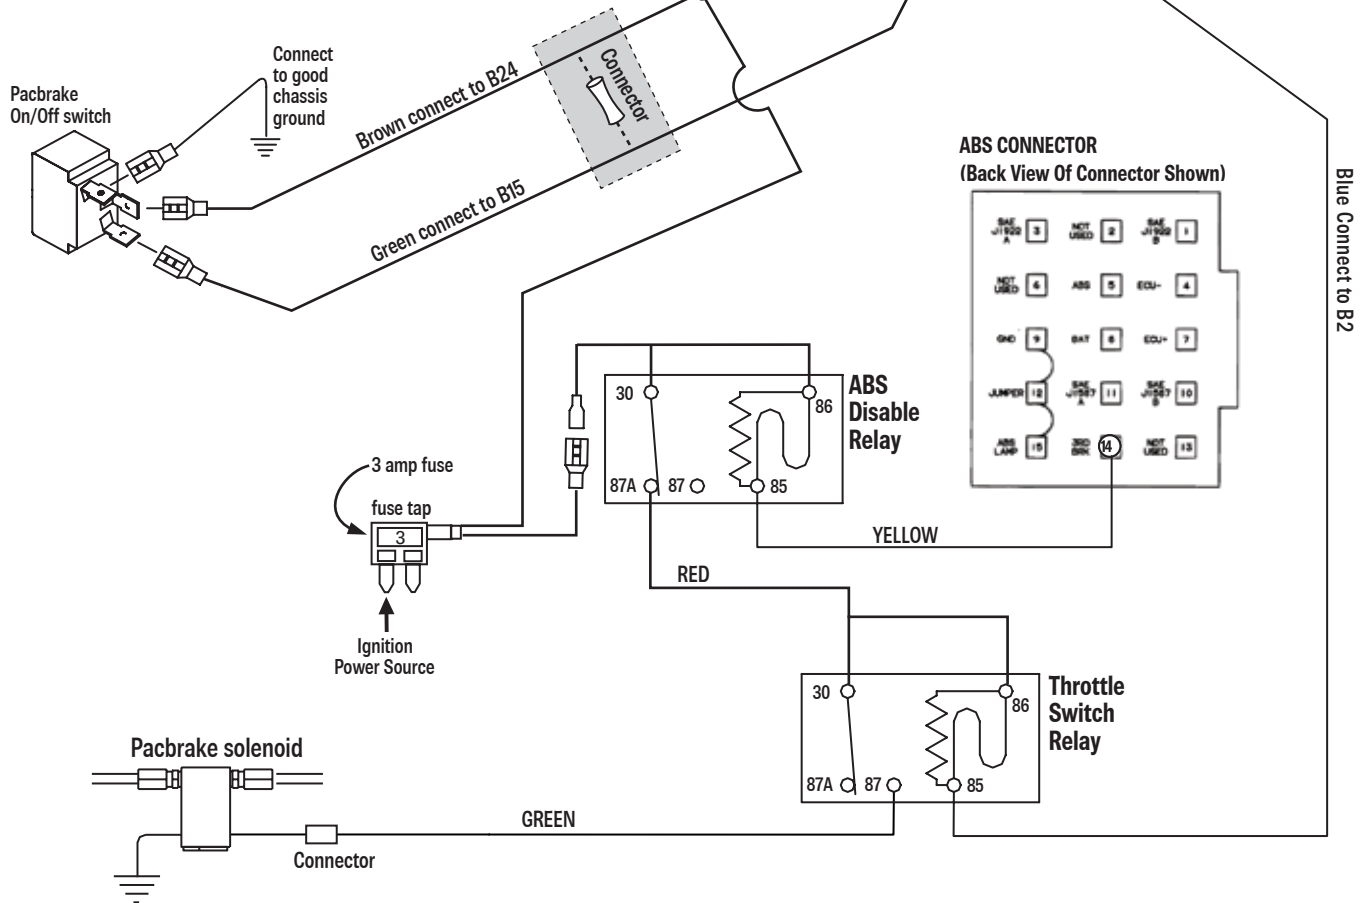

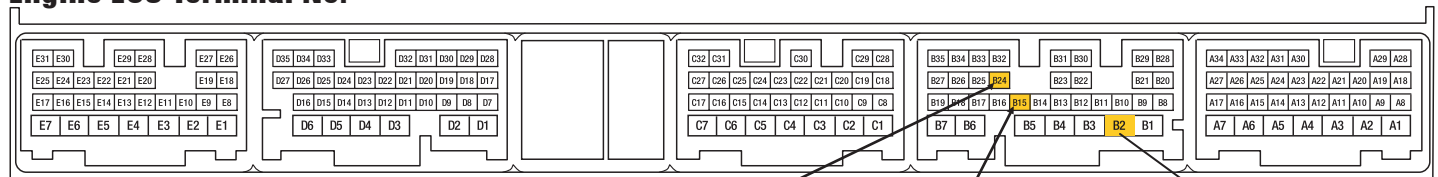

**Not installing the dash switch will apply the exhaust brake everytime the throttle is released.**

If your customer requests the Pacbrake dash switch not be installed, connect the brown and green wires of the switch harness together using the connector supplied (see shaded area). Discard the black ground wire.

## OPTIONAL Hino Electrical Schematic

VEHICLES WITH AN EXISTING AIR SYSTEM

### Engine ECU Terminal No.

### INSTALLATION ADDENDUM

Some vehicle operators prefer the Pacbrake dash switch provided in this kit not be installed.

**Not installing the dash switch will apply the exhaust brake everytime the throttle is released.**

If your customer requests the Pacbrake dash switch not be installed, connect the brown and green wires of the switch harness together using the connector supplied (see shaded area). Discard the black ground wire of the dash switch.
